Operating Systems

macOS, Windows

Version Control

Git with smart git flow
used with Bitbucket, Gitlab and Github

Education

BSc in CSE @City University of Dhaka

CGPA 3.40
2011 - 2015

HSC @Saheed Ramizuddin Cant. College

GPA 3.20
2010

SSC @Kamarpara School & College

GPA 4.50
2008

Experiences

May 2020 - Present Software Engineer @FlyHub. (flyhub.com)

I am working here as a full-stack developer for the Bangladesh team. I am responsible for building microservices and rest API and deploying them on the EC2 platform. I am also building front-end applications using ReactJS and Typescript. I also sometimes collaborate with the mobile application development team with Flutter and Firebase. Some featured products are:

- ** HRM Solution for internal use
 - I developed rest API using express, MongoDB, and frontend with React+Redux+Typescript, etc. I also collaborate with the mobile application team with Flutter.
 - ** Faces of Flyhub (Employee profiles)
 - Express+MongoDB based backend + ReactJS based frontend.
 - ** Apps of Flyhub (App showcase for Flyhub)
 - Express+MongoDB based backend + ReactJS based frontend.

Sep 2018 - April 2020 Software Engineer @Hal Travel Services Ltd. (haltrip.com)

My responsibility was to lead and develop the company's multi-tenant air-ticket solutions front-end and manage client custom requests. I developed the front end of the Whitelabel solution with ReactJS+ReduxJS. I also contribute to the backend system with RoR and build its mobile app with Flutter.

I am listing here some of our B2C websites links:

- Fly Ticket (<https://www.flyticket.com.bd/>)
- My Air Ticket (<https://www.my-air-ticket.com/>)

For last several months I also contribute on Haltrip Mobile application using Flutter and Dart.

Nov 2017 - July 2018 Software Engineer @Ticket Chai Ltd.

My responsibility here is take design from Sketch and convert them into pixel perfect site template using ReactJS and CSS3.

My works there till now are listed below:

- Air Ticket <https://ticketchai.com> (Built with ReactJS)
- Tours & Events <https://tour.ticketchai.com> (Built with WordPress)
- Blogs <https://blog.ticketchai.com> (Built with WordPress)
- Shop <https://shop.ticketchai.com> (Build with WordPress)
- Careers <http://careers.ticketchai.com> (Built with Ghost)

Oct 2016 - Nov 2017

Frontend Developer @Beatnik

Beatnik is a digital agency based on Mohakhali DOHS, Dhaka. I was worked on IT team as lead frontend developer. My responsibility there was working with lead designer and develop his designed site template from photoshop into desired technology such as WordPress, PHP and Twitter Bootstrap.

My works there till now are listed below:

- **Zurhem** <http://zurhem.com/>

Zurhem, like many leading names in fashion, is the passion project of the label's CEO, founder and creative director, Mehruz Munir. After joining Beatnik this was my first project. Immediate after joining I took over the design and develop the site with WordPress and jQuery (JS library). The site is fully responsive with every major browser. It also has a mobile version.

- **IPDC QuizBuzz**

This was a quiz competition arranged by IPDC finance ltd. and organized by Beatnik. I worked under project lead developer Abdullah Al Noman, made full frontend template using HTML5, CSS3 and jQuery

- **Bengal Meat** <https://bengalmeat.com/>

Bengal Meat Processing Industry is an export oriented world class meat industry. I built their current website using WordPress and WooCommerce. The site is designed for showcase their products on site.

- **Bengal Meat Qurbani** <https://bengalmeat.com/qurbani/>

This was a side project for sale cattle for EID-UL-Adha. Site was made by WordPress and WooCommerce.

- **BurgerKing** <http://burgerkingbangladesh.com/>

Fancy styled Official site of Burger King Bangladesh. My responsiblity on this project was create fluid responsive markup desktop to mobile device and then convert it to WordPress.

- **Axis** <http://axisbd.com/>

I was lead the development of the project. Worked on little portion as for help my junior there.

- **Berger** <https://www.bergerbd.com/>

WordPress site development project for Berger Paints Bangladesh, was work with Anam Ahmed as a template developer.

- **UAA** <http://www.unitedagainstalcohol.com/>

Was coded the site with HTML, CSS and PHP. Used php for sent visitor contact request form data to a database.

- **Petty Cash**

Internal Project to keep track of daily casual cost of agency. I create the markup using AngularJS 4. Later its taken by backend developer and backed with Laravel.

- **IPDC - Shundor Barir Khoje**

Another IPDC program to find beautiful homes around Bangladesh. It was a competition where everyone uploaded beautiful home photo as they seen. The site built with Laravel, html, css and jquery. Full development was done by me.

May 2013 - Present

Freelance Web Developer

From last may 2013 I am working as an Independent freelance web developer. I was worked first on Odesk then Elance and then for themeforest authors. Mostly I do make HTML templates and sometimes WordPress themes / sites for my clients. Till now I made almost 60+ HTML themes, 15+ WP themes and 12+ Email templates for deferent clients. There I am listing some of my works from the past:

- **CodemagicHQ** <https://codemagic.herokuapp.com/>

The project is an ongoing project for **Codemagic** a singapur based web design and development agency. I am making the site with ReactJs from scratch from a set of PSD design.

- **Holy Sheets USA** <http://holysheetsusa.com/>

This was my third WP projects when I worked on Odesk. I did make this site on August - September of 2013 for a chinese client. I did my first two WP sites for the same client too. The project was PSD to WordPress.

- **Groovytek** <https://groovytek.com/>

One of my most recent PSD to WP project.

- **Proland - Product Landing Page**

<https://themeforest.net/item/product-landing-page-template-proland/15430157?ref=frontlayer>

PSD to html for **surjithctly** themeforest project.

- **OnePro - Creative Multipurpose HTML5 Template**

<https://themeforest.net/item/onepro-creative-multipurpose-html5-template/18263641?ref=frontlayer>

PSD to html for **Themexy** themeforest project.

- **Video Cafe - Photo/Video Uploading Social Template**

<https://themeforest.net/item/video-cafe-photovideo-uploading-social-template/13071039?ref=frontlayer>

PSD to html for **Themexy** themeforest project.

I also made too many template for some great designers and author of Themeforest. Like **premiumlayers**, **Sunil Joshi**, **Surjithctly**, **Vinod** etc. I also have my own themeforest portfolio: <https://themeforest/user/frontlayer>

Jul 2011 - Apr 2013

Freelance Internet Researcher @Odesk

Starting of my career on Internet I was a independent internet researcher and data miner. I do search and collect data as my clients are asked from the internet.

Experiments

Word Scrapper

An APP to find word meaning, synonyms, definitions, etc by scrapping various dictionary sites. The app created with Firebase functions, TypeScript, NodeJS and Puppeteer.
